2. Brief description of the projects for which techno-feasibility study is required:

2.1 The Department of Tourism intends to develop two mini-ropeway systems in the first phase of ropeway project development in the State. The first ropeway is envisaged to connect the Chaobaching hillock with nearby Karang island in the Loktak Lake area of Bishnupur District. This will cover a distance of approximately 1.5 km. The project, once developed, will not only add to the tourist attraction of the Loktak Lake area, it will also provide a firm means of transportation for the people inhabiting the Karang island. It has been seen that in several instances, when the phumdis (floating biomass) block the waterway between Karang island and the nearest land fall point, the villagers staying at Karang island are not able to ensure speedy evacuation in medical emergencies. The station at Chaobaching hillock, which affords the best views of the grand Loktak Lake, will tremendously add to the tourism potential of the area.

2.2 The second project is planned to connect the proposed Marjing Polo Complex (presently under development) with the Polo Museum near the grand statue of a mounted Polo player, a project that is in an advanced stage of development. The location is in Imphal East District. It is expected that the Ropeway would be commissioned at the same time that the Marjing Polo Complex and the Polo statue cum museum projects are ready. This will also significantly enhance the tourism potential of the area and will enable the combined Marjing Polo Complex to emerge as an equally attractive tourist destination as the Loktak Lake area. The approximate haul would be little over 500 metres.

3. Scope of the techno-feasibility study

3.1 To carry out soil testing at the two project sites.

3.2 To ascertain the traffic for the ropeway projects.

3.2 To suggest the Ropeway system most suited for the projects.

3.4 To suggest the brief design of the ropeway system, inter alia, indicating the location of terminal stations, the number and height of towers, the facilities at the terminal stations.

3.5 Based on the anticipated traffic and other technical inputs, to suggest the approximate cost of the project at the two locations and arrive at a ticket price at which the project becomes viable. This would, however, be subject to changes at the stage of preparation of the Detailed Project Report once the techno-feasibility of the project is established.

10.3 **A Bidder should mandatorily secure a minimum of 50% marks** (i.e. 40 marks out of total 100 marks) in Technical Evaluation in order to be a qualified bidder **for being eligible for Technical weightage and subsequently for opening of financial bids.**

10.4 The total marks obtained by a Bidder in the technical shall be allocated 60% of technical weightage and the financial bids shall be allocated 40% of the financial weightage, and thereby making a total of 100% weightage for the complete bidding.

Illustration 1 (for Technical Weightage)

If a Bidder has secured 80 marks out of the total 100 marks in technical evaluation, his technical ***evaluation value shall be:48*** *i.e. {80 x 60%)*

10.5 Only such bidders who qualify in the technical evaluation stage shall be called for opening of financial bids. Client shall intimate the bidders, the time/ venue for the opening of **financial bids.**

11. FINANCIAL BID EVALUATION AND DETERMINATION OF THE SUCCESSFUL BIDDER

11.1 The financial evaluation shall be carried out and financial bids of all the bidders shall be given 40% of weightage.

11.2 The Bidder with the lowest bid (L1) shall be assigned full 40 marks (i.e. 40% of 100) and his total score of the bid shall be as per Illustration 2 below:

Illustration 2

*If the Bidder at Illustration 1 is L-1 Bidder and quoted Rs.100/- for being H-1, then his total value shall be **88** i.e. (48 Technical Value + 40 Financial Value)*

11.3 The financial scores of the other bidders (i.e. L-2, L-3…and so on) shall be computed as under and as explained at Illustration 3 below:

40 x Quoted Value for L1/ Quoted value for L2

Illustration 3

If the Bidder at Illustration 1 is L-2 Bidder and he quoted Rs.125, therefore 40% being the weighted value, the financial scores for L-2 shall be computed as under

40 x 100(quoted L1 price) / 125 (quoted L2 price) = 32 (financial score)

*Therefore L-2 Bidder shall have total value of **80** (48 Technical Value + 32Financial Value)*

11.4 The Bidders' ranking shall be arranged depending on the marks obtained by each of the bidder both in Technical Evaluation and Financial Evaluation.

11.5 The Bidder meeting the minimum eligibility criteria and with the **highest marks/ rank** (i.e. the **total** of technical evaluation marks and financial evaluation marks) shall be deemed as the **successful Bidder** and shall be considered eligible L1 Bidder for further process.

11.6 If there is a discrepancy between words and figures, the amount in words shall prevail.
